

Health Belief Model Worksheet

Instructions: Complete the worksheet, by either the coach or client with during a client interview session.

Perceived threat to health or well-being:	
What brought this to your attention? For example, symptoms, family history, or physician.	
What are the risk factors that cannot be modified, such as age, sex, or ethnicity?	
How susceptible do you feel you are to the threat in the short and long term?	
On a scale of 1–10, how severe to you feel the threat is to your health or well-being?	
What are some of the benefits to modifying some dietary behaviors to prevent or reduce the threat?	
What are some barriers to modifying dietary behaviors that you might face?	
On a scale of 1–10, how likely are you to modify dietary behaviors?
