

COACHING SYSTEM CHECKLIST

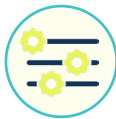

Define the Coaching System

- ☐ Clearly define the purpose and desired outcomes of the coaching system
- ☐ Create a structured, repeatable framework coaches can use consistently
 - Onboarding approach
 - Assessment toolkit
 - Data collection methods
 - Consultation and feedback
- ☐ Document the framework in clear, client-friendly language
- ☐ Develop the implementation strategy
 - Outline the steps coaches follow
 - Set the coaching cadence (weekly, monthly, quarterly)
 - Create scripts, templates, and workflows as needed

Start Simple

- ☐ Build a minimal, streamlined version of the framework
- ☐ Design a simple learning and behavior-change method for clients
 - Sequence the education
 - Define weekly actions or habits
 - Establish check-in expectations
- ☐ Remove unnecessary complexity
- ☐ Identify friction points
- ☐ Eliminate steps that do not improve outcomes
- ☐ Simplify communication and deliverables

Refine the System

- ☐ Collect structured feedback from clients, coaches, and performance data
- ☐ Catalog all feedback in one centralized system
- ☐ Review feedback on a regular cadence
- ☐ Implement a testing protocol for proposed changes
 - Define hypotheses
 - Run A/B or pilot tests
 - Document results and decisions
- ☐ Integrate validated improvements into the system
- ☐ Update documentation and coach training after each change
