

BUSINESS MODEL AND SCALING WORKSHEET

Determine Your Idea Business Size

Instructions: For each statement, put an 'X' in the box that best reflects how you want your business to feel long-term. The more honest your answers the more accurate your answers will be.

- ☐ Strongly Disagree
- ☐ Disagree
- ☐ Neutral
- ☐ Agree
- ☐ Strongly Agree

Lifestyle & Energy Preferences

Statement	1	2	3	4	5
I want strong boundaries and predictable work hours					
I want my business to support my life, not dominate it					
I would rather earn "enough" than maximize income					
I value low stress over rapid growth					

Lifestyle Score (max 20): _____

Client Experience Preference (High-Touch Bias)

Statement	1	2	3	4	5
I prefer deep relationships with fewer clients					
I enjoy personalization and customization					
I want to stay closely involved in client outcomes					
Quality matters more to me than volume					

High-Touch Score (max 20): _____

Scale, Systems & Complexity Tolerance

Statement	1	2	3	4	5
I'm comfortable serving many clients at once					
I enjoy building systems and processes					
I'm okay with standardization over customization					
I can tolerate operational and financial complexity					

Scale Tolerance Score (max 20): _____

Compute Your Ideal Business Size

Step 1: Add Your Scores

➔ Lifestyle + High-Touch Total: _____ / 40

➔ Scale Tolerance Total: _____ / 20

Step 2: Determine Your Result

Lifestyle + High-Touch							
		0-10	11-15	16-20	21-25	26-30	31-40
Scale Tolerance	16-20	Scaled	Scaled	Scaled	Scaled	Mid-Sized	Mid-Sized
	11-15	Mid-Sized	Mid-Sized	Mid-Sized	Mid-Sized	Small	Small
	0-10	Mid-Sized	Small	Small	Small	Small	Small

If you fall between categories, default down, not up.

Step 3: Lock the Output

My ideal business size is:

- ☐ Small / High-Touch
- ☐ Mid-Sized / Hybrid
- ☐ Scaled / Systems-Driven

My delivery bias is:

- ☐ High-touch
- ☐ High-volume
- ☐ Hybrid

Determine Pricing and Client Volume

Pricing exists to support your ideal business size, not fight it.

Monthly Price	10 Clients	25 Clients	50 Clients	100 Clients
\$150	\$1,500	\$3,750	\$7,500	\$15,000
\$250	\$2,500	\$6,250	\$12,500	\$25,000
\$400	\$4,000	\$10,000	\$20,000	\$40,000
\$750	\$7,500	\$18,750	\$37,500	\$75,000

(Monthly revenue shown; annual = monthly $\times$ 12)

My Target Economics

Based on what you have uncovered regarding your ideal business size, fill out your target economics using the table provided above.

- ➔ Target monthly price per client: \$_____
- ➔ Target client load: _____
- ➔ Estimated monthly revenue: \$_____
- ➔ Estimated annual revenue: \$_____

Growth Path and Levers

Growth Lever Decision

Based on my diagnostic and pricing math, my primary growth lever is:

- ☐ More clients (Scale through Size)
- ☐ Higher pricing (Scale through Price)
- ☐ Hybrid

Why this is the least stressful and most sustainable path for me:

Capacity Reality Check

If I exceeded my chosen business size, the first thing to suffer would be:

- ☐ Client experience
- ☐ My time
- ☐ My energy
- ☐ My systems
- ☐ My enjoyment of the work

This confirms that my business should remain:

- ☐ Small
- ☐ Mid-Sized
- ☐ Scaled

Final Business Model Definition

My Right-Sized Business Model

- | | |
|--|-----------------------------------|
| ➔ Business size: _____ | ➔ Target clients: _____ |
| ➔ Delivery style: _____ | ➔ Target price: \$_____ |
| ➔ Primary growth lever: ☐ Size ☐ Price ☐ Hybrid | ➔ Target monthly revenue: \$_____ |

Final Reality Check

If this business stayed exactly this size for the next 3 years:

Would it support my lifestyle, energy, and happiness? Why or why not?
