

Single-Leg Squat Assessment and Split Squat Observational Recording Template

CHECKPOINT	VIEWPOINT	MOVEMENT IMPAIRMENT	RESULT
Foot and ankle	Lateral	Head rise	- Right - Left - Both
	Posterior	Excessive pronation	- Right - Left - Both
Knee	Anterior	Valgus	- Right - Left - Both
		Varus	- Right - Left - Both
	Lateral	Knee dominance	- Right - Left - Both
LPHC	Anterior	Asymmetric weight shift	- Right - Left
		Inward trunk rotation	- Right - Left - Both
		Outward trunk rotation	- Right - Left - Both
	Lateral	Excessive anterior rotation	- Yes - No
		Excessive posterior pelvic tilt	- Yes - No
		Excessive forward trunk lean	- Yes - No
Right/Left/Both refers to the stance or forward leg when the impairment occurs. Mark Right or Left or Both based on which limb a movement impairment was observed. For asymmetric weight shift, mark the direction to which the shift occurs.
