

Stabilization Level Flexibility Training Examples

Stabilization-Level Flexibility Training Exercises for Foot Turn-Out Impairment

Exercise Selection	Sets	Reps	Tempo	Frequency	Duration
Self-myofascial techniques: - Calves - Biceps femoris - Tenor fascia latae	1–3	1	Slow; hold pressure on tender spots for 30–60 seconds	5–7 days per week	Per-session times vary; 4–6 weeks total depending on goals.
Static stretching: - Standing calf stretch - Standing lateral hamstrings stretch - Kneeling hip flexor stretch	1–3	1	Slow; hold end range for approximately 60 seconds	5–7 days per week	
Dynamic stretching (optional): Lunge with rotation	1	10–15	Moderate/controlled	5–7 days per week	

Stabilization-Level Flexibility Training Exercises for Knee Valgus Impairment

Exercise Selection	Sets	Reps	Tempo	Frequency	Duration
Self-myofascial techniques: - Calves - Adductor complex	1–3	1	Slow; hold pressure on tender spots for 30–60 seconds	5–7 days per week	Per-session times vary; 4–6 weeks total depending on goals.
Static stretching: - Standing calf stretch - Standing adductor stretch	1–3	1	Slow; hold end range for approximately 60 seconds	5–7 days per week	
Dynamic stretching (optional): Multiplanar lunge	1	10–15	Moderate/controlled	5–7 days per week	

Stabilization-Level Flexibility Training Exercises for Arms Fall Forward Impairment

Exercise Selection	Sets	Reps	Tempo	Frequency	Duration
Self-myofascial techniques: - Pectorals - Latissimus - Thoracic spine	1–3	1	Slow; hold pressure on tender spots for 30–60 seconds	5–7 days per week	Per-session times vary; 4–6 weeks total depending on goals.
Static stretching: - Standing pectoral stretch - Stability ball latissimus stretch - Seated thoracic spine rotation stretch	1–3	1	Slow; hold end range for approximately 60 seconds	5–7 days per week	
Dynamic stretching (optional): Reverse lunge to overhead reach	1	10–15	Moderate/controlled	5–7 days per week
