

Section 1: Technical and Software Needs

Instructions: List your requirements for each category.

Category	Requirements	Preferred Features/Functions
Recording Software (e.g., multitrack recording, ease of use)		
Editing Software (e.g., noise reduction, multitrack editing)		
Hosting Platforms (e.g., RSS feed, analytics)		
Email Marketing Platforms (e.g., automation, segmentation)		
Generative AI Technology (e.g., transcription, content creation)		
Microphones (e.g., USB or XLR, cardioid pattern)		
Headphones (e.g., over-ear, noise-canceling)		
Soundboards (e.g., multiple inputs, effects)		
Cameras (e.g., HD or 4K, adjustable focus)		
Computers (e.g., high RAM, fast processor)		
Studio Space (e.g., quiet location, soundproofing materials)		

Section 2: Tool Research and Budget Planning

Instructions: Use this sheet to research available tools in each category. For each tool, list the tool, its cost, and pros and cons associated. Then, evaluate the results to make your selections. Add or remove rows as needed. Remember to make note of any existing tools you have access to, as well.
