

Content creation doesn't just happen—it takes time and planning. Before you begin filling in your content calendar and scheduling posts, make sure you've got the items in this checklist.

- ☐ Phone or camera to take photos and videos
 - A laptop computer can be helpful for large projects.
- ☐ Ring light or great natural lighting
- ☐ Tripod, phone stand, or friend to take photos
 - If using a tripod or a phone stand, a Bluetooth clicker can be helpful to avoid using the timer function.
- ☐ Content creation apps

The following are recommendations from Dr. Mallory Fox, but every user has different preferences, so don't be afraid to try a few.

- Graphic design: Canva
- Photo editing: Lightroom
- Video editing: Viva Video
- Accessibility: MixCaptions
- Content calendar and organization: Later

Use this section to record notes, questions, or reminders for later.
