

Social Support for Eating Survey

Below is a list of things people might do or say to someone who is trying to improve their eating habits. We are interested in high fat and high salt (or high sodium) foods. If you are not trying to make any of these dietary changes, then some of the questions may not apply to you, but please read and give an answer to every question. Please rate each question twice. Under family, rate how often anyone living in your household has said or done what is described during the last three months. Under friends, rate how often your friends, acquaintances, or coworkers have said or done what is described during the last three months.

Please write one number from the following rating scale in each space:

None	Rarely	A few times	Often	Very often	Doesn't apply
1	2	3	4	5	8

During the past three months, my family (or members of my household) or friends:	Family	Friends
1. Encouraged me not to eat "unhealthy foods" (cake, salted chips) when I'm tempted to do so.		
2. Discussed my eating habit. changes with me (asked me how I'm doing with my eating changes).		
3. Reminded me not to eat high fat, high salt foods.?		
4. Complimented me on changing my eating habits ("Keep it up" "We are proud of you").		
5. Commented if I went back to my old eating habits.		
6. Ate high fat or high salt foods in front of me.		
7. Refused to eat the same foods I eat		
8. Brought home foods I'm trying not to eat.		
9. Got angry when I encouraged them to eat low salt, low fat foods.		
10. Offered me food I'm trying not to eat.		

In scoring the "8" should be recoded to "1."

The Social Support for Eating Habits Survey should be scored separately for family and friends where higher scores indicate either high levels of encouragement or discouragement.

Encouragement: sum items 1 -5 Family _____ Friends _____

Discouragement: sum items 6 -10 Family _____ Friends _____
